## Recycling textiles, shoes and clothes

We're currently unable to collect textiles, shoes and clothes for recycling. Recycling companies have introduced tough restrictions on quality due to market conditions and are not willing to accept textiles, shoes and clothes from household collection schemes. This is due to concerns that material will become damp/wet whilst left outside for collection making it unsuitable for re-use.

However, they can still be recycled at your nearest recycling centre where 10% of proceeds go to Guide Dogs or they can be donated to a charity shop for re-use. Please avoid putting them in your grey bin.
